RE: Acknowledgement of 30-day Notice of Intent to Close Tanks, Unocal
Service Station #6357, Marysville, Washington, Facility ID# 4-240008

Dear Mr. Matson:

This acknowledges the Environmental Protection Agency's receipt of notification, received July 27, 1995, from Duncan Wallace, regarding your intent to remove underground storage tanks (UST) from the above listed facility.

Attached are materials for your use in the closure process:

- Permanent Tank Closure on Indian Lands
- Notice of Underground Storage Tank Removal/Closure form
- Notification for Underground Storage Tanks form
- Federal Register dated 9/23/88

Once closure has been completed, please **fill out** the "Notice of Underground Storage Tank Removal/Closure" form and **return** it along with a **copy of the site assessment** lab results to our office. This will effectively close your file. A copy of the decommissioning form will also be provided to your local Tribal UST Coordinator.

It is our understanding that new tanks will be installed shortly after the removal of the existing tanks. Please be aware that within 30 days of bringing a tank(s) into use, the EPA must be informed. This is accomplished by sending a completed "Notification for Underground Storage Tanks" form.

Thank you for your cooperation in this program. Please contact Geoff Keeler at (206) 553-1089, if you have any questions.

Sincerely,

Katherine M. Holt
